

Ethan Wang

240-810-3479 | edw39@case.edu | [LinkedIn](#) | github.com/Not-Ethan

EDUCATION

Case Western Reserve University

Cleveland, OH

B.S. in Computer Science

Expected Graduation: May 2027

- Relevant Coursework: Data Structures and Algorithms, Logic Design and Computer Organization, Intro to Data Science Systems, Discrete Mathematics

EXPERIENCE

University of Notre Dame

Notre Dame, IN

Research Intern

June 2023 – August 2023

- Conducted research in the Lab of Dr. Hai Lin focusing on robotic system simulations.
- Utilized **Deepnote** and **Drake** for visualizing robotic systems, enabling accurate simulations of control inputs.
- Observed and contributed to drone testing experiments to explore navigation and control strategies in dynamic environments.

Brightstar Capital LLC

Rockville, MD

Intern

June 2022 – August 2022, June 2024 – August 2024

- Redesigned and maintained the company website, improving usability and ensuring timely updates to important information.
- Streamlined daily operations by assisting with administrative tasks, including call handling, file organization, and data entry.
- Diagnosed and resolved on-site technical issues, reducing downtime and enhancing workplace efficiency.
- Coordinated rental property showings between agents and tenants, improving scheduling efficiency.
- Led the migration of the company's portfolio to Appfolio Portfolio Manager, standardizing hundreds of records.

PROJECTS

PodInk | *Node.js, Express, MongoDB, Redis, Docker, React, Tailwind CSS*

October 2024 – Present

- Developing a **full-stack web application** using Express serving **REST API** with **React** as the frontend that allows users to convert their podcasts into fully formatted newsletters.
- Implemented custom email-magic link login flow using **Mailgun API** and **Redis**.
- Built video transcription service using **Whisper**.
- Designing and building responsive front-end UI using React.
- Planning deployment of project via Heroku.

Darch AI | *Node.js, Express, Flask, EJS, Bootstrap, Pytorch, MongoDB*

March 2023 – February 2024

- Built a full stack web application using **Express**, **EJS**, and **MongoDB**, to enhance research efficiency for debaters.
- Trained, tested, and compared multiple AI models via Lambda Labs cloud GPUs using **Pytorch** and **Huggingface**.
- Deployed application to **Google Cloud** compute engine.
- Reached out to debaters online to gain over **300 sign-ups** in the first month.

TECHNICAL SKILLS

Spoken Languages : Mandarin

Programming Languages: Java, Python, JavaScript, HTML/CSS, C

Frameworks: React, Node.js, Express, EJS, Flask, Vpython, TailwindCSS, Redis, Mongodb, SQLite

Developer Tools: Git, Docker, Google Cloud Platform, Heroku, VS Code, PyCharm, IntelliJ, Eclipse, Google Sheets, Nginx

Libraries: pandas, NumPy, Matplotlib, Pytorch, Huggingface

ONLINE COURSES - WITH CERTIFICATE

- Edx (offered by IBM):** Introduction to Cloud Development with HTML, CSS, and JavaScript
- Edx (offered by IBM):** Programming for Everybody (Getting Started with Python)
- Edx (offered by MichiganX):** Machine Learning with Python: A Practical Introduction
